

# Revathi Yerninti

Software Engineer | Full-Stack Development & Applied ML

reeshmayerninti@gmail.com | +919390153255 | linkedin.com/in/yerninti-revathi | github.com/YernintiRevathi

## Summary

Full-stack Software Engineer (Node.js/Express, Python) with hands-on experience building production-grade web applications and ML systems end-to-end. Built a 90%+ accuracy real-time detection system, and won 1st place among 18 teams at a 24-hour hackathon. Strong DSA foundation with 750+ problems solved and a 650+ day LeetCode streak.

## Education

### MVGR College of Engineering

B.Tech in Computer Science and Engineering

2022 – 2026

CGPA: 8.91

## Skills

- **Languages:** Python, Java, C++, JavaScript, SQL
- **Web Development:** HTML, CSS, React.js, Node.js, Express.js
- **Databases:** MySQL, MongoDB, SQLite
- **ML/CV:** TensorFlow, Scikit-learn, OpenCV
- **Core CS:** DBMS, Operating Systems, Computer Networks, Data Structures & Algorithms, OOP
- **Tools:** Git, GitHub, VS Code, Cursor

## Experience

### Software Engineer Intern

Sep 2025 – Nov 2025

*Yuga Yatra Retail OPC Pvt. Ltd. – IT services & software development*

- Independently designed and built the frontend for a school-discovery platform, using Cursor to accelerate development
- Shipped a production-ready frontend 2 weeks ahead of schedule, prompting the company to scale the initiative from a solo effort to a full team

### Front End Web Development Intern

Aug 2025 – Oct 2025

*Edunet Foundation, in partnership with AICTE – SkillsBuild Program*

- Built a study planner web app with dynamic UI, reminders, calendar view, and task management, with state persisted via local storage
- Completed self-paced coursework and delivered a final project presentation

## Projects

### StayInn – Full-Stack Property Rental Platform

July 2026 – Aug 2026

*Node.js, Express.js, MongoDB, Mongoose, EJS, Passport.js*

[\[Github\]](#) [\[Demo\]](#)

- Architected a full-stack rental marketplace with RESTful routes for listings, reviews, and user management, using session-based auth and custom middleware for owner-restricted edits
- Integrated Cloudinary for image uploads and MapTiler geocoding, with Joi-based validation and centralized error handling

### RentNGo – Vehicle Rental Platform

Dec 2024 – Feb 2025

*Flask, Flask-SQLAlchemy, SQLite, Bcrypt*

[\[Github\]](#) [\[Demo\]](#)

- Built a full-stack rental platform with separate customer/admin flows for booking, payments, inventory management
- Implemented secure auth with Bcrypt password hashing and a role-based admin dashboard

### Insite – Dark UX Pattern Detector | Hackathon Winner

Sep 2025

*Python, Scikit-learn, Flask, JavaScript, Chrome Extension*

[\[Github\]](#) [\[Demo\]](#)

- Built a 2-stage Naive Bayes pipeline (joblib/REST API) and a Chrome extension that scrapes, classifies, and highlights dark patterns live
- Built a weighted 0–100 transparency-scoring algorithm with downloadable HTML reports; won **1st prize among 18 teams** at 24hr Sankalp Hackathon

### Violence Detection and Alert System

Jun 2025 – Jan 2026

*Python, TensorFlow, MobileNetV2, InsightFace, OpenCV, Multithreading*

[\[Github\]](#)

- Built a real-time violence detection CNN (MobileNetV2 via transfer learning), achieving 90.07% accuracy and 0.91 precision on an augmented 11,073-image dataset
- Architected a multithreaded pipeline with dual-threshold false-positive suppression, InsightFace identification, unknown-face clustering, and async multi-channel alerts (SMS, call, email)

## Publications

- **“Autonomous AI Surveillance: Real-Time Violence Detection, Facial Identification, and Automated Emergency Response”** – Presented at CIGAI 2026, Second International Conference on Mathematical Modeling in Computational Intelligence and Generative AI (Springer Publishing Partner), AITAM, Tekkali, Jul 2026

## Certifications

- Web Development Fundamentals – IBM SkillsBuild; SQL (Advanced & Intermediate) – HackerRank
- ML Foundations, NLP & Generative AI – AWS Academy
